Using some fascinating teaching methods and materials, Miss Chan is an energetic teacher who truly wants her students to significantly improve their English level.

Not only does she practice speaking, listening and comprehension practices with us, she also teaches synonyms, vocabulary and 'how to write a useful writing plan in different genres.' I believe my English level can improve to a level that enables me to get in a college—my final goal.

Miss Chan is a nice teacher. In these lessons, when we are not sure about some knowledge or skills in English, she doesn't punish us. Instead, she teaches us patiently. I have learnt a lot in these English classes. Miss Chan also teaches us in many different ways, such as watching video and playing games. I am so happy that my English has improved in the end of the course.
